Professional Summary

Product Engineer specializing in building and delivering digital products. I handle the development, configuration, and deployment of mobile apps, websites, Shopify stores, and automation workflows to deliver working solutions. I strategize the logic and workflow before building, and I prioritize proper documentation throughout the process. AI tools and AI powered IDEs help me work faster while maintaining rigorous testing, smooth deployment, and user centered design. My focus is on solving problems and completing projects entirely.

Core Skills

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS
- **Database:** Supabase, Firebase
- **Mobile Development:** Android app development, production deployment
- **Web Development:** Full-stack websites, landing pages, dashboards, interactive platforms
- **Shopify Development:** Liquid, store customization, app-based commerce workflows
- **AI & Automation:** AI concepts, AI agents, n8n workflows, Python automation scripts
- **Deployment:** Netlify, Vercel, Cloudflare (Frontend); Render, Cloudflare Workers (Backend)
- **Security Mindset:** Secure production practices, web security awareness
- **Tools & Support:** Git, APIs, Excel, Word, SEO, Google Indexing, modern deployment workflows

Work Experiences

Craftafolic

Nov2025–Mar2026

Role: Shopify Developer

Launched a fully functional store. Managed product listings, checkout flows, and theme customization using Liquid.

HibaTanningCo.

May2026
